Prodigi for Windows Accessibility Guide

Software Accessibility Features	
Functionality	**Description**
Accessibility Setup	Direct access to Windows accessibility settings to configure mouse pointer color and size, text cursor appearance, and more. Settings → System → Accessibility.
Alternative Access Devices	Supports navigation with keyboard shortcuts, mouse, touchscreen, and alternative access devices like switch scanning.
Autofocus	Automatically focuses on documents or objects, with the option to lock or unlock focus. Double-tap or click in Magnifier (live).
Customizable Color Contrasts	Users can select 24 color combinations and contrasts to suit their visual preferences. Settings → User Interface.
High-Contrast Viewing	Enhances visual clarity and comfort by making text and images more readable for those with low vision. Shift between color, positive, and negative views by swipe or click-drag on the right of the screen.
Highlighted Reading	Displays a positive-negative box around each spoken word while using text-to-speech to help maintain focus. Magnifier and Files → Settings.
Locator Color	An onscreen visual box will indicate the focus of the software. 8 available colors. Settings → User Interface.
Magnification	Provides a broad range of magnification levels (up to 28x for live images and up to 80x for captured images). Magnifier, Distance, and Files.
Multi-lingual Support	Users can install up to four voices from over 75 available in 18+ languages. Additionally, the software interface can be shown in the chosen language. Settings → User Interface.
Optical Character Recognition (OCR)	Recognizes text in captured or imported documents to display in Diamond Edge™ font with user-chosen contrasts.
Pointer Size	Adjust the onscreen pointer on a scale from 1 to 15. Settings → User Interface.
Preferred Zoom	Users can set a default zoom level for captured documents and images. Magnifier and Files → Settings.
